

ALSTAR UPDATES - Issued December 22, 2021

Greetings ALSTAR users,

As 2021 is ending, all of us here at CERIS (Center for Environmental and Regulatory Information Systems) wanted to take a moment and wish our ALSTAR users all the absolute best for the upcoming holidays. We hope you all are safe and healthy and will be able to spend time with your loved ones.

This year was not the best. We have all been faced with many challenges due to the continuing COVID global pandemic. We continue to navigate through this pandemic and its current variants. If Delta wasn't enough, now we have Omicron. Many have lost loved ones or have grieved for those who have; many have continued to work remotely; many still have had to alter their lives to survive and so many other changes that will take some time to fully recover. We are, however, a resilient bunch and continue to persevere. We wish for a much better 2022 for all of us.

REMINDER: Purdue University is closed for Winter Break to give its students and staff time off from December 23, 2022 - January 2, 2022 and will reopen January 3rd at 8:00am Eastern Time. This means there will be no CERIS staff in the office during that time. This website will be available as usual and will be checked on a restricted schedule.

Have a wonderful Holiday Season! Please stay safe and well!

From your entire CERIS Staff,

Center for Environmental and Regulatory Information Systems (CERIS)
